## Blackpool Law Firm proudly introduce 'Client Care TV'

Atkinson, Cave and Stuart Solicitors of Blackpool have always prided themselves on their 'personal service' to their clients. They have now taken their already approachable and open style of Client Care to the next level with the introduction of Client Care TV to their reception and waiting room.

Playing on a large LCD screen, this bespoke film, produced by local company Turner & Wagstaff Associates Ltd, is all about Atkinson, Cave and Stuart. They can now be sure that both their new and existing clients are fully informed of the services on offer to them, and with the information also available on DVD's displayed in reception they can take the same informative film home to keep for future reference or to pass on to friends and family.

Lee Scott, Practice Manager, said "*We are delighted with the film and the impact it has had so far on our clients knowledge of us and the services we are able to provide. The screen has brought our reception area to life and it's already proved a big hit with those waiting as an enjoyable alternative to flicking through magazines.*

*Being able to get our message across in this new eye catching format definitely puts us head and shoulders above the competition and it has been a pleasure to work with the staff of Turner & Wagstaff*".
